## | Apple ID Account Data Sharing Information

January 2022

**File name** Account Data Sharing Information.csv

**File description** This file contains information about which third party applications the user has permitted to access the user's AppleCard information.

**Why Apple keeps this information** Apple retains this information in order to preserve the user's authorization preferences and to ensure the integrity of transactions and user facing or entered content.

| Field Name     | Details                                                                                                                                                              |
|----------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application    | Name of the authorized app                                                                                                                                           |
| Consented Date | Date on which the user provided consent for the app to access AppleCard information, including balance, credit limit, available credit, APR, and transaction history |
| Developer      | Developer of the authorized app                                                                                                                                      |
| Shared Info    | Scope of information shared with service provider, including balance, credit limit, available credit, APR, and transaction history                                   |
| User Agent     | Information about the user's device from which the authorization occurred, including information about the operating system and browser                              |
| User ID        | User ID shared with the service provider (this is not the user's Apple ID)                                                                                           |
